Operations Leader & Systems Builder with 15+ years of experience across small business leadership, public service, and education. Proven expertise in managing $500K+ budgets, navigating high-stakes regulatory environments, and implementing resilient organizational systems. Currently leveraging a background in public health enforcement and business ownership to provide practical systems thinking, technical implementation, and steady execution for mission-driven organizations.

Experience

English Language Teacher & Tutor

CEIP San Clemente & Online | Sedaví, Valencia, Spain | October 2024 - Present

- Facilitate bilingual instruction and knowledge transfer within Spanish-led classrooms, strengthening cross-cultural communication and operational adaptability.

Content Designer & Visual Communications Specialist

Andrea Moore Arts | Special Olympics International projects | June 2024 - Present

- Created a cohesive icon library and aligned with disability-related vocabulary and curated a visual public health timeline aligned with accessibility standards.
- Designed presentation materials and educational slide decks focused on navigating healthcare systems for individuals with developmental disabilities and their advocates, including alt-text for images to support screen reader compatibility.

Planned Career Break | Family relocation to Spain

Denver, CO & Valencia, Spain | March 2023 - Present

- Managed sale of Baere Brewing Company, including operational handover, documentation, and staff transition.
- Executed international relocation, overseeing visa process and family resettlement logistics.
- Completed TEFL certification and 18-month Spanish language immersion; currently teaching in a Spanish public primary school.

Co-Owner | Co-Founder | Operations Manager

Baere Brewing Company | Denver, CO | 2012 - 2023

- Co-founded and operated a craft brewery, overseeing production, retail, and distribution operations in compliance with local, state, and federal regulations.
- Directed business development from concept to launch, including site selection, buildout, equipment sourcing, and full operational setup.
- Oversaw financial operations and managed ~$500,000 annual cash flow, including budgeting, payroll, accounting, and tax compliance.
- Developed and implemented HR policies, hiring procedures, and team management systems to support a collaborative and accountable workplace.
- Established internal systems and safety protocols in partnership with CSU Health & Safety to maintain OSHA-compliant operations.
- Led company-wide operational pivot during COVID-19, transitioning from on-site service to packaging and distribution, implementing online ordering and revised logistics workflows.
- Managed vendor relationships, procurement, and facility operations to ensure production continuity and cost control.
- Built community partnerships, including a recurring “Charity of the Month” initiative supporting local nonprofits.

Experience (cont.)

Environmental Health Investigator II

City of Denver Public Health & Environment | Denver, CO | 2012 - 2014

- Conducted regulatory inspections for food manufacturing and retail facilities, ensuring compliance with municipal and state health codes.
- Advised business owners on risk mitigation strategies and operational improvements to reduce public health hazards.
- Authored detailed inspection reports and enforcement documentation to support corrective action and legal proceedings.
- Investigated foodborne illness complaints and public reports, coordinating follow-up actions and compliance measures.
- Developed and delivered training programs for new staff and facility operators on regulatory standards and safe operating practices.
- Led temporary facility closures and represented the department in formal enforcement and legal processes.

Natural Resource Specialist

Jefferson County Open Space | Golden, CO | 2008 - 2012

- Designed and executed large-scale forest restoration and habitat conservation projects across public lands.
- Managed project lifecycles including planning, field implementation, data analysis, and reporting.
- Collected and interpreted environmental data to inform resource management decisions and long-term planning.
- Supervised and trained seasonal field crews, emphasizing safety protocols, risk mitigation, and equipment stewardship.
- Developed operational procedures and training materials to improve internal program efficiency and compliance.
- Created and delivered public-facing educational programming and community outreach initiatives.
